

Project Title: About The Undiscovered Future

Hosted By: Content Story

Project Introduction:

To retain the thoughts that were extremely loud when coronavirus began to spread, we asked the creative community to answer two questions:

- What are you grateful for? (It can be a small, personal thing that you have learned during this time)
- What is your dream? (for the world after the pandemic)

About Organisation:

Established in 2017, the foundation has the purpose of implementing projects on the peripheries of design, art, technology and experience. At Content Story, we believe that there is power in creativity, conscious design and quality information, a power that enables people to create social change. To date, the Foundation organized 3 major projects: BODY exhibition during European Capital of Culture; OVERLOAD at Gdynia Design Days, and the conference; Undiscovered – Stories about Experience.
