

# Project Title: Relativistic Objects

**Hosted By: Martina Taranto**

## ***Project Introduction:***

Our minds understand time in relation to physical experiences. To design R.O. the concept of time in classical philosophy and general relativity was investigated. This intersection reveals how material and conceptual dimensions are in truth complementary in the definition of human reality.

## ***About Organisation:***

Artist-designer-innovator.

My approach to design is holistic, and emerges from a background that combines disciplines and experiences, to generate futures built on synergies.

My work and training gravitate towards the necessity to find a compromise and a fluid dialogue between knowledge, humanity and the environment

I investigate and try to envision a world built on a sensible and ethical dimension.

My practice is devoted to the achievement of social and natural Justice.
