

# Project Title: Creating 3D Fair Isle Designs

**Hosted By: Mary Macgregor**

## ***Project Introduction:***

Experimenting with the 3-colour design of this project revealed the extraordinary potential of using a 3-colour knitting technique for traditional 2-colour Fair Isle motifs. It is the discovery of a new way of designing Fair Isle textiles.

## ***About Organisation:***

BAKKA was launched at the end of 2016 and preserves Shetland's rich textile heritage by using the oldest Fair Isle patterns and colours in a totally sustainable and contemporary manner.

My work in reversible textiles moved Fair Isle design into the 21C. I produce knitwear, and interiors textiles.

I operate a zero-waste policy. All scrap is upcycled.

Future work following on from this project will see BAKKA establish itself as one of the leaders in contemporary textiles in the UK.
