

# Project Title: Light Sculptures

**Hosted By: Pilar Wiley Ceramics**

## ***Project Introduction:***

For 2020, Los Angeles-based ceramicist Pilar Wiley shifted her focus from patterned vessels to produce a new line of sculptural lights, showcased for the first time at the Los Angeles Design Festival. Hand-built in her West Adams studio, each light is a unique organic form.

## ***About Organisation:***

Los Angeles-based artist Pilar Wiley makes ceramic vessels that serve as canvases for her repeating patterns and pictorial themes. Influenced by the forms and techniques of West and South African pottery, Wiley advances a personal mythology through the repetitive ceramic process. A recent series of lamps and vessels with double apertures marks a new focus on the sculptural possibilities of the vessel.

## **Individual Participants**
