

# Project Title: JO studio 'Water and Light'

Hosted By: JO studio

## ***Project Introduction:***

Two separate projects on water and light find each other in a shared fascination. Bringing natural phenomena together with design.

## ***About Organisation:***

With JO studio, we find a balance between functionality and abstraction. Our ambitions lie in working from certain production techniques and with the qualities of the material. This is often in collaboration with natural elements such as light and water.
