

Project Title: PROPHECIES OF DUST

Hosted By: Studio GROOVIDO

Project Introduction:

Studio Groovido challenge the brick, adding layers of lightness, movement and personality. To reach this purpose they explore the digital spaces of RPG games.

About Organisation:

Gianmaria & Giorgio first met in Eindhoven where they both attended the master degree in Contextual Design at Design Academy of Eindhoven. In 2019, they joined forces creating Studio GROOVIDO. They don't define themselves only as designers or artists, but their practice and work are on the verge of both. They believe in the poetry and narrative power of things. Their latest projects are focused on digital culture and its relationship with the physical world.
