

Project Title: Spaces for Well Being

Hosted By: Alissa+Nienke

Project Introduction:

A+N presents Spaces for Well Being: our collaboration with a psychologist and sensorial curator to develop research-based spaces that contribute to individual health and happiness. With materials and installations we create sensory experiences that enhance and positively influence your mood.

About Organisation:

Alissa+Nienke (A+N) have been creating signature walls and innovative surfaces since 2014.

As well-being has become an ever-expanding concern in today's society, A+N's aim is to design interior products that speak to the senses and enhance individual health and happiness.

Inspired by nature and combining craftsmanship with leading-edge technologies, A+N design innovative materials, objects and installations for interior architecture, that trigger curiosity and interaction.
