

Project Title: PrettyPlastic launches a new facade tile for high-rise and prefab buildings.

Hosted By: Pretty Plastic b.v.

Project Introduction:

Pretty Plastic designs and produces sustainable building materials, made out of 100% recycled PVC, originating from plastic window frames, downspouts and rain gutters. The Pretty Plastic facade tiles are certified according to international standards and are installed at projects all over the world.

About Organisation:

Pretty Plastic designs and produces sustainable building materials, made out of 100% recycled PVC, originating from plastic window frames, downspouts and rain gutters. The Pretty Plastic facade tiles are certified according to international standards and are installed at projects all over the world.
